## QUALITY CONTROL OFFICER

### Position Overview :

Will be responsible for ensuring that all alcoholic beverages produced meet defined quality, safety, and regulatory standards. This role involves inspecting raw materials, monitoring production processes (fermentation, distillation, bottling), conducting laboratory tests, and ensuring that finished products are consistent in taste, composition, and safety.

### Key Responsibilities :

- Conduct testing and inspections
- Maintain quality records
- Ensure compliance with regulatory standards
- Perform all required laboratory tests such as Alcohol content (ABV), pH levels, Clarity, color, taste, and odor

### Requirements :

- Degree/Diploma in Food Science, Chemistry or related field
- Knowledge of laboratory testing methods and equipment
- Strong analytical and problem-solving skills

### Benefits :
